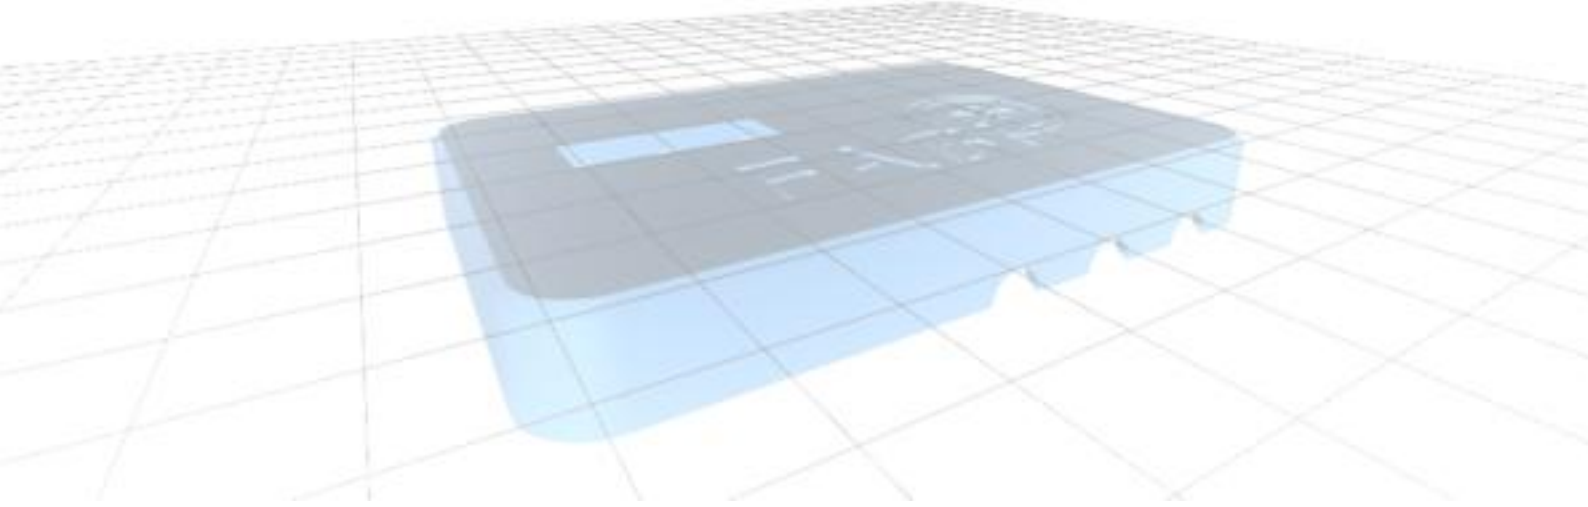
# Construction Manual



# Welcome to the FABI

## Construction Manual

This manual covers detailed step-by-step instructions for building the FABI
alternative input system.

As additional tools you will need:
– a soldering iron with a fine tip
– sharp side-cutting pliers
– a slotted screwdriver
– optionally a PCB holder

The required materials are:
– tin-solder (small diameter)
– adhesive tape (Scotch tape)

## Legend

Solder / do not solder

Clip / do not clip with pliers

Fix / do not fix with tape

Attention: orientation of this part is important!

This part is done in this step
