

# Construction Manual

# Welcome to the FABI

## Construction Manual

This manual covers detailed step-by-step instructions for building the FABI alternative input system.

As additional tools you will need:

- a soldering iron with a fine tip
- sharp side-cutting pliers
- a slotted screwdriver
- optionally a PCB holder

The required materials are:

- tin-solder (small diameter)
- adhesive tape (Scotch tape)

## Legend

Solder / do not solder

Clip / do not clip with pliers

Fix / do not fix with tape

Attention: orientation of this part is important!

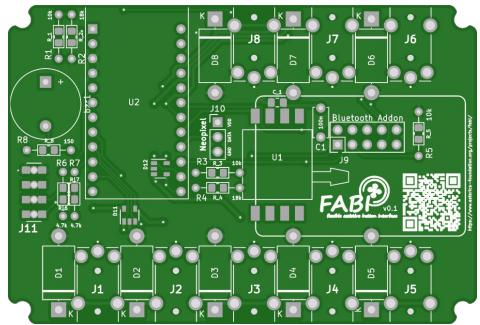

This part is done in this step

Part number for this step
